

ConnectTable

CONNECTABLE TABLE EXTENDERS THE SECRET INGREDIENT TO INCREASE RESTAURANT PROFITS

A globally-recognized restaurant constantly struggled to efficiently seat large groups. Pushing tables together wasn't cutting it, as this eliminated seats for smaller parties, disrupted dining operations and required the staff's valuable time during peak hours. With ConnectTable, the restaurant has increased its seating capacity and profits by using it two ways:

1

AS A TABLE EXTENDER

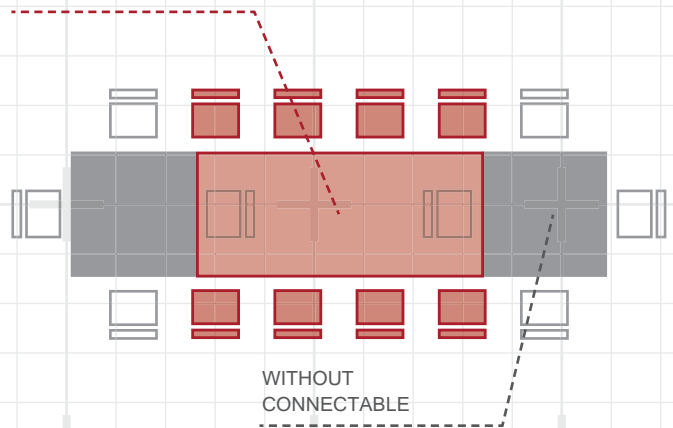

ConnectTable accommodated large groups by acting as additional dining space between two existing tables, resulting in:

66-75% Increase in Headcount per Table

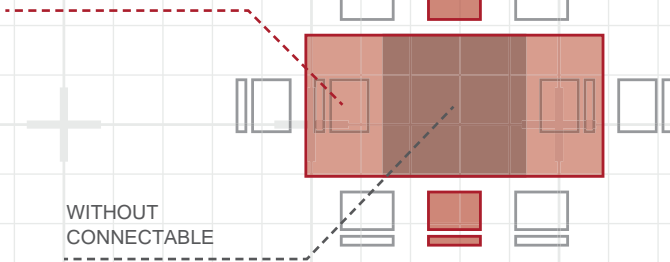

180% ROI After First Use When (2) 4-Top Tables Can Seat 14 Guests

120% ROI After First Use When a 4-Top and 2-Top Can Seat 10 Guests

WITH CONNECTABLE

WITH CONNECTABLE

AS A TABLE TOP

By placing ConnectTable on a single tabletop, the seating area was elongated and could accommodate more guests, resulting in:

33% Increase in Headcount per Table

50% ROI After First Use When a 6-Top Can Seat 8 Guests

100% ROI After Second Use

2

&

HAVE A BANQUET OR PRIVATE DINING SPACE?

AFTER CONNECTABLE:

- 9 fewer tables from the main dining area are needed to create the same seating capacity in the banquet room.
- The 9 tables that remain in the main dining area generate \$2,160 per table turn, resulting in a 120% increase in ROI after one seating.

YOUR TABLE IS READY!

ConnectTable is available in a variety of sizes for seamless integration. Contact us today to find the ConnectTable that's right for your business.
